
ASJOG

Volume 2 Number 1

A New Year with New Achievements !

One year has now elapsed since the appearance of the first publication of ASJOG. The effort and preparation for this great work had actually started much earlier, so that now we should actually be celebrating the second birthday of ASJOG, not the first!

It is amazing how time goes by so quickly when one has great hopes and major targets to pursue.

We are all proud of the position that ASJOG reached in the Egyptian medical community and the unprecedented role which it plays in free continuous medical education for all obstetricians and gynecologists in Egypt.

Yet, we still keep our feet on the ground and our eyes on the even greater responsibilities which we have to stand up to.

We believe that true and sincere self dedication must be a continuous and unlimited process. And that is why we promise our readers better services still to come in terms of our scientific content, presentation and routes of distribution.

We would also like to take this chance to welcome you to visit our websites (www.asjog.org) and (www.sehetek.com) and to watch our educational multimedia production on diagnostic hysteroscopy. We are eager for your valuable feedback.

Last but not least, I personally would like to thank the former chief editor Professor Aly Elyan for his wonderful efforts in bringing ASJOG to light over the last year and to promise him and all my colleagues in our beloved specialty to do my best for the improvement of this service for the welfare of all Egyptian women.

Chief Editor
Prof. Mahmoud El Shourbagy
