ASJOG in Action

During the last few months, Ain Shams Department of Obstetrics and Gynecology witnessed some very happy events. The department's annual conference was more than successful. A new generation of registrars was employed and they may be a lucky bunch of young doctors since they will work in the long awaited new delivery suite and the new training program for registrars.

ASJOG produced two new multimedia CD. Its last issue (the first issue of the second year) was received with great enthusiasm, both locally and in the Gulf region. ASJOG has increased its number of copies by 50% and is now well known all over Egypt.

The ASJOG two websites are being renovated, and international contributors to the journal and the website are currently increasing in number every month.

The second scientific club of ASJOG was held last May with a wonderful success.

Dear readers, the ASJOG continues to grow every day to meet your expectations. We hope to satisfy you all. Now enjoy the reading. This issue contains some very interesting articles.
